If a participant collects all the Markers necessary to complete the digital picture, the participant wins the prize depicted in the digital picture. Markers are automatically added to your Digital Collector Card. The Digital Collector Card serves to track which Markers a participant has collected so that the participant knows which Markers they obtained, and which Markers they need, in order to complete the combination and win the prize indicated on the Digital Collector Card.

There are five (5) Collect to Win prizes (“Collect to Win Prizes”) available, therefore, there are five (5) Digital Collector Cards available (see descriptions of each prize below). Each Marker has a corresponding Marker number. Each Marker number will correspond with a space on one of the five (5) Digital Collector Cards. No Marker may be used to win more than one prize. Each Digital Collector Card contains between three (3) and seven (7) common Markers that are produced in approximate equal quantities, and one (1) rare Marker that is required to complete the combination. The rare Marker is produced in smaller quantities (see chart below for odds of receiving any rare marker). If a participant collects all of the Markers (common plus rare markers) necessary to complete a Digital Collector Card, the participant is eligible to win the Prize shown when all Markers are filled on the Digital Collector Card (subject to verification by the Game Sponsor or Administrators).
